Glossaries

E-2W	BEV 2-wheeler vehicle
E-3W	BEV 3-wheeler vehicle
E-4W	BEV 4-wheeler vehicle
EV	Electric vehicles include E-2W, E-3W and E-4W
Hybrid	Hybrid includes mild hybrid, strong hybrid, Plug in hybrid, petrol hybrid and Dieasel hybrid

The number of sales by fiscal year

Graph shows the number of sales is increasing every year in particular E-2W. Over the past 8 years, it records 1961.7% increase.

EV Sales FY 24-25

- E=2W is the most sold vehicle type, which hit more than 1 million in FY24-25.
- On the other hand, E-2Ws account for only about 6% of total two-wheeler sales, indicating room for further market share growth. E-4Ws made up 2%, while hybrids accounted for 7%.

EV Sales by vehicle type: FY24-25

EV and hybrid share of total sales: FY24-25

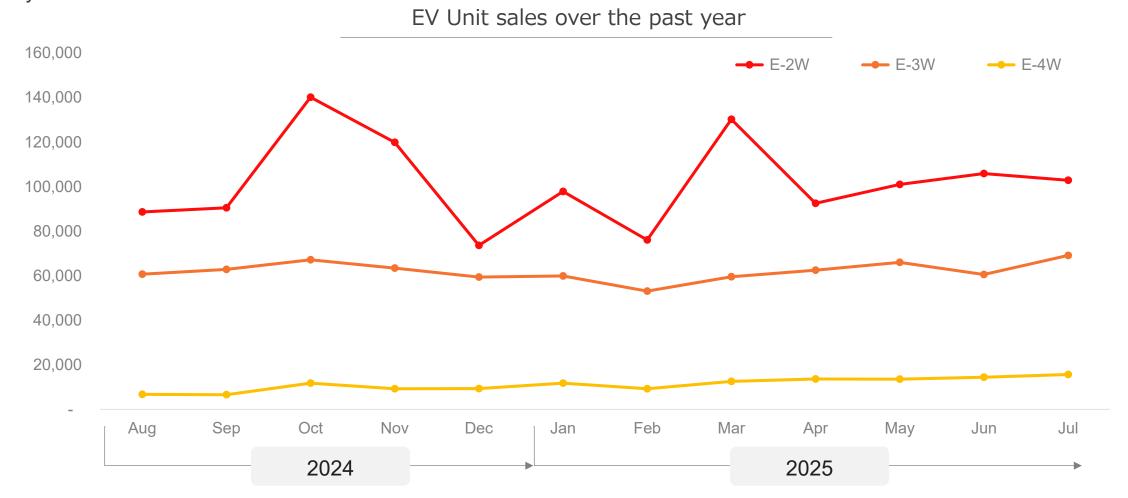

Source: VAHAN (as of August 2nd, 2025).

Sales volume by category over the past year

• Looking at the past year, sales tend to peak in October before the Diwali season and in March at the end of the fiscal year.

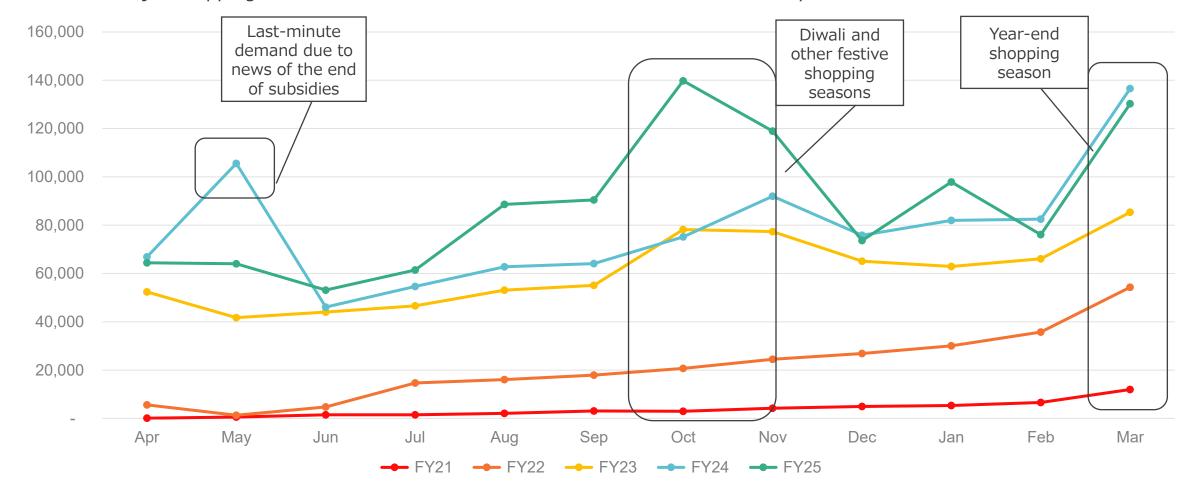

Source: VAHAN (as of August 2nd, 2025).

https://vahan.parivahan.gov.in/vahan4dashboard/vahan/view/reportview.xhtml

E-2W sales by fiscal year

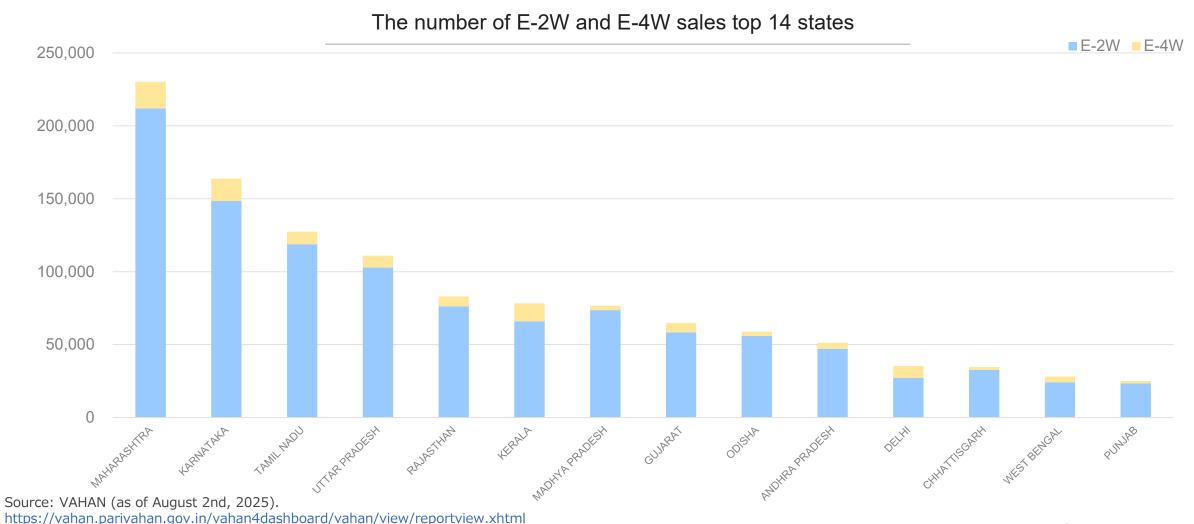

- The two-wheeler category has been increasing its sales every year, and FY24 has exceeded the previous year in almost every month of the year.
- The major shopping seasons in India are the festive season and the end of the year.

Source: VAHAN (as of August 2nd, 2025).

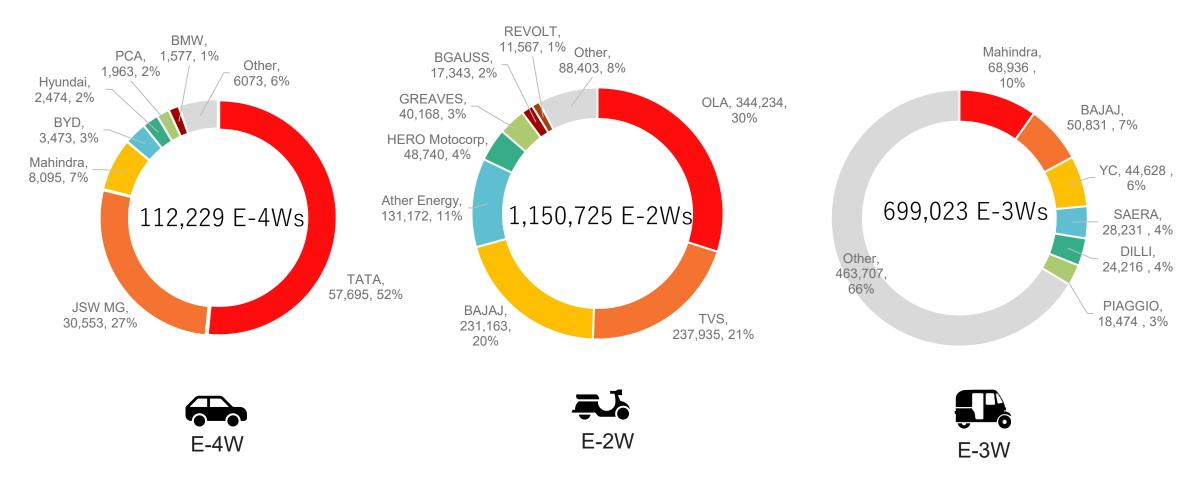

The number of E-2W and E-4W Sales by state FY 24-25

• When combining E-2W and E-4W sales, Maharashtra has the highest number of units sold, followed by Karnataka. Compared to other states, Kerala has a higher proportion of E-4W sales.

Share of sales by manufacturer: FY24-25

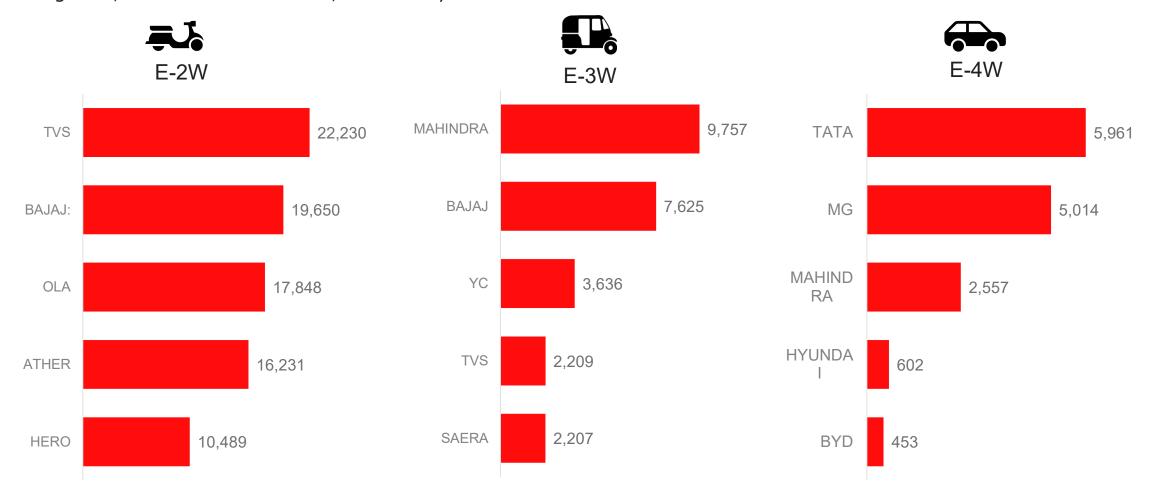

• In the four-wheeler segment, TATA holds a 52% market share, followed by MG, which has been gaining ground recently. In contrast, the two-wheeler segment is highly competitive, with OLA at 30%, TVS at 21%, and BAJAJ at 20%.

Source: VAHAN (as of August 2nd, 2025).

TOP 5 makers in July

• In the E-2W segment, traditional manufacturers like TVS and Bajaj dominate the top ranks. Meanwhile, in the E-4W segment, TATA leads the market, followed by MG.

AUTO Production Linked Incentive (PLI) Overview

• Production Linked Incentive (PLI) Scheme offers different scheme for complete EV vehicle manufacturers and for advanced component manufacturers, with different incentive rates, etc.

	OEM Incentive Schemes	Incentive Scheme for Component Companies
Eligible products	Battery Electric VehicleHydrogen fuel vehicle	 Components using advanced automotive technology CKD/SKD Kits Vehicle Aggregate
Criteria	 OEM Global group revenue (from automotive and/or automotive component manufacturing): 100 billion rupees. Investments: fixed assets by the company or its group companies (gross): 30 rupees billion. Minimum domestic new investment requirement. 	 Components Global group revenue (from automotive and/or automotive component manufacturing): 5 billion rupees. Investments: fixed assets by the company or its group companies (gross): 1.5 billion rupees. Minimum domestic new investment requirement.
Incentive Rates	• 13~16% of sales	• 8~11% of sales
Additional Incentives	Cumulative total of over R100 billion +2%.	 +2% for a cumulative total of over R12.5 billion +5% for electric/hydrogen fuel cell vehicles
Other criteria	At least 50% domestic added value At least 10% increase in sales in the following year	

EV Policies implemented in the past

- The Faster Adaptation Manufacturing of Electric Vehicles (FAME 2) ended on 31 March 2023 and a new government-led policy Electric Mobility Promotion Scheme-2024 (EMPS 2024) was launched on 1 April.
- FAME 2 was planned for three years (eventually five years) and covered not only two and three-wheelers but also four-wheelers and buses, with a budget of R100 billion. On the other hand, EMPS2024 will be implemented for four months, with a budget of RUR 5 billion and will only cover two and three wheelers as the targeted EV categories.
- Support for four-wheelers and buses will continue under the Auto PLI and PM-eBus Sewa Scheme, which are already in place.

	FAME 2	EMPS 2024
Implementation Period	• 3 years (eventually 5 years) (April 1, 2019 - March 31, 2024)	4 months (April 1, 2024 - July 31, 2024). Extended 2 months
Budget	100 billion rupees (eventually 115 billion rupees)	5 billion rupees (of which 3.333 billion rupees will be allocated to two wheels))
Eligible Vehicle Models	e-2-wheeler、e-3-wheeler、e-4-wheeler Strong Hybrid 4W, e-Buses	• e-2-wheeler • e-3=wheeler
Subsidy for purchaser	 Purchase subsidy amount All types except 10,000 rupees/kWh buses (20% of price) 20,000 rupees/kWh bus (40% of price) Approximate maximum subsidy amount 2 wheels: 20,000 rupees 3 wheels (including e-rickshaw): Rs 50,000 4 wheels: No upper limit. However, up to 1.5 million rupees of the exfactory value. 	Purchase subsidy amount • 5,000 rupees/kWh for e-2-wheeler • e-3-wheeler Maximum subsidy amount (Or 15% of factory price, whichever is lower) • 2-wheeler: 10,000 rupees • E-Rickshaw • e-cart: 25,000 rupees • E-3-wheeler (L5 category): 50,000 rupees
Subsidies for manufacturers	The manufacturer receives a refund as a sales incentive.	The manufacturer receives a refund as a sales incentive.
Domestic manufacturing requirements	 Localization of manufacturing Phase manufacturing Program (PMP) is applicable. 	 Localization of manufacturing Phase manufacturing Program (PMP) is applicable with small changes.
Installation of charging stations	Assistance in setting up charging stations	Not planned.

EV policy in major city

Maharashtra Electric Vehicle Policy 2025

- Demand incentive for E-2W, E-3W and E-3W
- · Exemption to tall tax
- Charging infrastructure development (Incentive and regulation)
- · Research & Development
- Skill and Talent Development

Karnataka Clean Mobility

- Road tax and registration fee exemptions for qualifying EVs and strong hybrid
- Approximately 2,600 new charging stations will be added
- Inclusion of hydrogen fueling and other clean energy solutions to create a multimodal clean mobility

Demand incentive for E-2W, E-3W and E-3W

• Exemption to registration and road tax

Delhi Electric Vehicles Policy, 2020

 Charging infrastructure development (Incentive and regulation)

Tamil Nadu EV Policy 2023

- Demand incentives for E-2W, E-3W and E-3W
- · Charging Infrastructure development
- EV Special Manufacturing Package
- Ecosystem development (R&D, Skill development and so on)

EV News: July 2025

Tesla opens showroom in Mumbai¹

 Tesla, led by Elon Musk, will open its first showroom in India. In early March, the company signed a contract for its first showroom in Mumbai, and finally opened it. The first model to be launched in India will be the Model Y, which was produced in China with improvement.

Battery loan companies increase²

 MG's BAAS (battery subscription) adopted in the Windsor EV was successful. Now, some lenders have begun to offer battery subscription services, allowing buyers to pay according to usage, like fuel costs, rather than bearing the full upfront cost. It reduces the burden on EV purchases and enables flexible payment methods.

Delhi government to extend EV policy³

 The Delhi government is likely to extend its electric vehicle policy beyond July 15. This extension is being considered as the new EV policy is still being developed. The government may extend the existing policy by three months. The upcoming EV Policy 2.0 aims to promote the adoption of EVs through incentives. It also focuses on job creation and charging infrastructure.

India's charging infrastructure⁴

The number of public EV charging stations has increased from 5,151 in 2022 to 26,367 by the beginning of FY2025, reflecting a growth rate of approximately 72% over three years. However, there remains a gap between EV adoption and charging infrastructure, with reports indicating that there is currently only one public charging station for every 235 EVs.

Skoda and VW set to enter strong hybrid race⁵

Skoda and Volkswagen are expected to introduce strong hybrid SUVs and sedans in India by 2028. These vehicles will be built from the ground up on a localized, Indiaspecific platform (IMP21) designed to accommodate hybrid, ICE, and EV technologies. Kia and Hyundai are also reportedly preparing to launch hybrid models, drawing attention to the upcoming competition in the hybrid segment.

Introducing Intage India

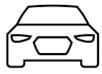

Intage India Company Profile

Establishme nt	August 2012
Business Descriptio n	Connecting consumers with customer companies through marketing research, data analysis, etc., and supporting marketing activities
	In addition to India, we also organize researches in countries around India (Bangladesh, Pakistan, Sri Lanka, Nepal) and the Middle East.
Representat ive	Managing Director Sumit Ito
HQ	Delhi 153, 3rd Floor, Okhla Industrial Estate Phase 3 Rd, Okhla Phase III, Okhla, New Delhi, Delhi 110020
Branch	Bangalore
Employee	Approximately 32 people *As of April 2025(Including 2 Japan expatriates / 3 locally hired Japanese)

Case study in India

We provide consistent support in a wide range of industries and research themes, from the expansion planning stage to post-expansion monitoring.

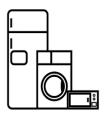

Acceptability study of new equipment of four-wheeled vehicles.

- Advertising Effectiveness Measurement Survey
- Showroom Evaluation Survey (Mystery Shopping)

- New Product Concept Testing
- Survey on the use of cosmetics
- Skin care product packaging evaluation
- Baby Care Product Testing
- Beverage and food taste evaluation

- Observation survey of cooking and laundry behavior
- Acceptance survey of new designs for home appliances.

- Understanding the housing equipment needs of major developers
- Showroom Visitor Interview

public sector

- Support for collecting various types of information for JETRO
- Survey on the living conditions of slum dwellers
- Understanding the job search status of day laborers

17

Commitment to quality

Understand the challenges in survey quality in India, We are working to collect high-quality data and information.

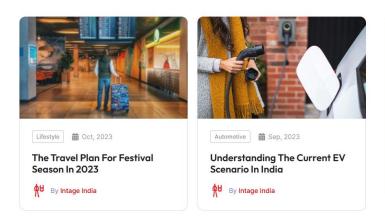

Quality issues in India

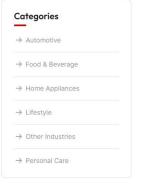

- ✓ There are hundreds of field-specific companies in India.
- ✓ The method varies depending on the company. It is left to the discretion of the individual.
- ✓ There are many low-cost field companies, and the awareness of quality is very high.
- ✓ The majority of the investigators are freelancers. He has multiple tasks.
- ✓ Because of the division of labor culture, there is often a lack of a bird's-eye view of the whole. In some cases, the scope of each person's responsibility is unclear.

Monitoring to ensure quality from the perspective of Japan
